MONTASJE

Skv endene på LED-stripene som skal skjøtes sammen inn i skjøtestykket. Sørg for at pluss og minus på LED-strip er lik på hver side.

Sørg for at LED-stripene møtes på midten av skjøtestykket.

Benytt spesialtilpasset nebbtang til å presse ned metallklemmene. Press jevnt ned og ta en side om gangen.

NB! Ta av tape på undersiden av LED-strip før de føres inn i skjøtestykket.
